K1911 Dent Gun Kit w/ Tabs- positively lift with a ratcheting lock, or free pull dents on multiple surface planes. Includes bonus pack of 42 Dent Tabs (\$84 value!)

Item # 410-8300 \$ 199.99

PDR K-Bar Super Tab System includes the K-Bar with 5 adapters, 5 Super Tabs, one 12.5mm flex-thick centipede crease tab and one 12.5mm rigid-thin centipede crease tab. The K-Bar Super Tab System provides Dent Tech's with the leverage and power needed to tackle larger dents. The K-Bar is manufactured with the highest strength composition, a sliding saddle (angling up to 60° and sliding 15.5"), pivoting foot pad (pivots over 210°), and comfort grip. This system comes with heavy duty large body Super Tabs and Centipede Crease Tabs meant to be used with the K-Bar to tackle deep, large dents. The leverage and power using these products, coupled with high strength PDR glue, will pull the most difficult dents from virtually all metals used in vehicle composition.

Item # 410-8340-SUP \$ 350.00

The PDR Glue Pulling Kit comes with a large heavy duty bag, Robo Lifter, slide hammer, glue gun, glue, tab caddy (with both ICE and original tabs-40 total tabs), adapters and knockdown kit. This kit is full of high quality tools any PDR Tech would need for pulling smaller dents.

Item # 410-8099 \$ 450.00
